MEMORANDUM FOR: Director of Central Intelligence

FROM: Dave Gries *DL*

SUBJECT: Weekly Report

25X1

3. Action on Intelligence Authorization Act. HPSCI is expected to go to the Rules Committee early next week for a rule on the intelligence authorization bill. Floor action could occur late in the week. Meanwhile, the Senate version of the bill is ready for floor action; however, before that happens the leadership will have to deal with Helms' letter to Dole indicating that he may offer amendments on the floor. All this means that a conference between the chambers on the intelligence authorization act is some time off, if it ever occurs. In one possible scenario we will be funded via a Continuing Resolution instead of via the usual authorization-appropriations process. If this happens, some of the onerous provisions in HPSCI's bill--like Hamilton's Angola restriction--would undoubtedly be excluded. However, new initiatives are sometimes prohibited in Continuing Resolutions, and we would have to solve that problem in some fashion.
